Re: Stance on Controlled Atmospheric Stunning (CAS)

Considering the statement issued by the Fiqh Majlis of Canada (FMC) on Controlled Atmospheric Stunning (CAS) on June 06, 2024, the Canadian Council of Imams (CCI) approves of the CAS operations conducted by Maple Leaf Inc. Edmonton AB Est. 7F and Maple Leaf Inc. London ON Est. 901, which is monitored and certified by the Halal Monitoring Authority (HMA) as halal and tayyib.

The FMC has conducted thorough research on the matter and have witnessed the operations firsthand after which they have concluded that the operations comply with the fiqh standards of halal. The CCI takes in complete confidence the decision of the FMC on the matter and has thus endorsed it. It should be noted that the CCI is not providing a blanket approval of CAS but rather on a case-by-case basis. Hence, this should not be interpreted otherwise.

Signed and approved by the Canadian Council of Imams
